CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Mr. George P. Reilly, Plant Manager
National Gypsum Company
50 Division Street
Millington, New Jersey 07946

Re: Millington, New Jersey Plant
NPDES No.: NJ 0002429 510

Dear Mr. Reilly:

This is to confirm your telephone conversation on July 29, 1974 with Mr. Scott Spitzer of this office regarding the non-receipt of the Comprehensive Monitoring Report-Sampling Schedule I which was due on June 30, 1974 pursuant to Condition 12(a) of the National Pollutant Discharge Elimination System (NPDES) Permit which became effective on April 30, 1974.

As agreed to in the conversation, a detailed explanation including immediate action to be taken is due in this office within five working days from the date of receipt of this letter. Discharge Monitoring Reports must be submitted for all parameters and on EPA form 3320-1(10-72) copies of which were sent to you when the permit was issued.

In the conversation you also acknowledged that no monitoring for July, 1974 had been done either. However, you did agree to meet the August 10, 1974 deadline for the submission of that data by immediate testing in accordance with the permit requirements.

You further stated that you would not meet the July 30, 1974 deadline for submission to the State Agency of an engineering report pursuant to Condition 11(a) of the permit. A notice of noncompliance must be submitted for this and all future compliance schedule deadlines. The notice must follow the form specified in the permit.
